

Get Schooled

Why don't you set a good example for the kids and go back to school too? Rev up your love life *and* your brain by taking a class together on date night.

Written by **Kristen Manieri**

The Art of the Rub

If only we were all blessed with exceptional massage skills, perhaps we'd never leave the house on date night. Couples lacking in talent can experience a two-hour private massage class involving serious touching that will come in handy later at home (wink-wink). All classes are taught by a skilled massage therapist at **Bodyscape Massage Therapy** in Orlando for a fee of \$195 per couple. www.bodyscapemt.com

Get Cookin'

Ooh la la... nothing says sexy like a hot chef in the kitchen. Romance is on the menu at **Truffles and Trifles** in College Park, a cooking school for the wannabe chef in us all. Besides the dozens of cooking classes T&T regularly schedules, there's a popular Date Night class one Saturday evening per month. Date Night is a couples-oriented evening with the music turned up and the lights turned down. Don't forget to bring your favorite wine or beer. The Beer and Burgers Date Night is the next couple's class scheduled on Saturday, September 20 at 6:30 p.m. \$125/couple. www.trufflesandtrifles.com

Sex...y Education

Ever think about improving your 'downtown' skills? Sex education has come a long way since your seventh grade gym class. Start creating the sex life you've only dreamed about at one or more of the sex-related workshops offered at the **Florida School of Holistic Living** in September and October. While classes are bound to be as arousing as they are insightful, they'll be presented respectfully as a "clothes on and hands off" experience. www.holisticlivingschool.org

Live Outside the Lines

Free yourself from all the restrictions of life and give your fingers a workout with the Adult Finger Painting Class at **Maitland Arts Center**. Let your inner child come to life during this 12-week series where you'll use everything but a brush to create your masterpieces. Make sure to bring your creations home... maybe your kids will proudly display them on the refrigerator. PLAYGROUND homework assignment: Grab some edible delights from the store and body-paint each other in the bedroom. Delish! www.maitlandartcenter.org

Language of Love

Discover one of the romance languages (French, Italian, Spanish and Portuguese) at **Berlitz Language Center** and start using phrases like, "Come sei bella!" or "Laisse moi te prendre ma chérie!" You will not be able to resist each other as you whisper sweet nothings in a new language of love. They offer private instruction in the location of your choice. www.berlitzorlando.com
